In the present day, the artist Oisin MacDara lives in self-imposed exile on Tiranogue -- the small island where the shipwrecked Irish settled. The past is Oisin’s curse, as memories of the twin sister who died tragically when he was a boy haunt him still. Then on a quiet All Hallows’ Eve, a restless spirit is beckoned into his home by a candle flickering in the window: the ghost of the girl whose brief life ended on Tiranogue’s shore more than a century earlier. In Oisin’s house she seeks comfort and warmth, and a chance at the life that was denied her so long ago. For a lonely man chained by painful memories, nothing will ever be the same again.

Dora’s mother, Helen, is a complicated woman whose relationship with her family has always been turbulent, while her father Richard has cobbled together a life that bears little resemblance to his boyhood dreams. And Cassie, Dora’s long-estranged sister, has cut off her family entirely, it seems. When Dora arrives at Clifftops, her family’s rambling home on the Dorset coast, it seems that Helen might finally be ready to make amends for her own part in the tragedy. But what Dora soon discovers is that the path to redemption does not rest solely with her mother. Can family crimes this damaging ever really be forgiven?

**Travertine** Allan Pentecost 2005-07-22 During the spring of 1960, an uncle showed me a 'petrifying spring' near Plaxtol in Kent where twigs had been encased in a calcareous jacket. A twig was collected and having - cently been given I. Evan's Observer's Book of Geology by my parents, I found a photograph of another petrifying spring and an explanation of its origin. In those days, Derbyshire was too far for a holiday destination, and I took little further interest until a research studentship with Professor G. E. Fogg became available in 1971. Tony Fogg had recently moved to the University College of North Wales, Bangor and the research was to be into cyanobacterium mats, with fieldwork along the Red Sea coast. The fieldwork never materialised but my interest in algal mats had been aroused. A chance stroll along the Bangor shore revealed beautifully calcified cyanobacterium mats, and Tony generously allowed me to investigate these instead. The old Plaxtol collection was retrieved and yielded abundant cyanobacteria. It became apparent that here was a wealth of information about a rock whose formation was so rapid, that the process could be studied in days rather than years - an exceptional state of affairs. A search of the literature also revealed that the rock, a form of travertine, had other unusual features.

I am in love with these books." -Hooks & Books Blog Synopsis Mountains, miracles, and marriage. I had no idea what to expect when the producers of Dr. Hoffman sent me to the pristine white mountains of Aspen, Colorado. As the town of Aspen is known for being a winter haven for uber-rich Americans, I knew this desert cactus was going to be way out of her element. The ace up my sleeve however, was a high-class movie-making surfer whose family owned a cabin in those snowy hills. With him by my side, I'd make the most out of the experience. The job was assigned under unusual circumstances. An anonymous mountain man paid a hefty fee to persuade the producers of my show to send me out for a segment on local artisans. Suited up in my parka and Ugg boots, I put the warmth of the California sun in the rearview mirror and headed to a winter wonderland. With my newfound family in tow, I was prepared to celebrate the best month the year had to offer...until the one woman who drastically changed my life all those years ago appeared like a shadow out of pure frosted air, shattering my soul all over again. \*\*\* In the twelfth and final book in the Calendar Girl serial, Mia is off to Aspen, Colorado to film a segment on local artists. **Yoga and the Quest for the True Self** Stephen Cope 2018-04-17 More than 100,000 copies sold! Millions of Americans know yoga as a superb form of exercise and as a potent source of calm in the midst of our stress-filled lives. Far fewer are aware of the full promise of yoga as "the way of the fully alive human being"--a 4,000-year-old practical path of liberation that fits the needs of modern Western seekers with startling precision. Now one of America's leading scholars of yoga psychology--who is also a Western-trained psychotherapist--offers this marvelously lively and personal account of an ancient tradition that promises "the soul awake in this lifetime." Drawing on the vivid stories of practitioners at the largest yoga center in America, where he has lived and taught for more than ten years, Stephen Cope describes the philosophy,

psychology, and practice of yoga--a practical science of development that urges us not to transcend or dissolve the self, but rather to encounter it more deeply. In this irreverent modern-day Pilgrim's Progress, Cope introduces us to an unforgettable cast of contemporary seekers--on the road to enlightenment carrying all the baggage of the human condition: confusion, loss, disappointment, addiction, and the eternal conflicts around sex and relationship. As he describes the subtle shifts of energy and consciousness that happen at each stage of the path, we discover that in yoga, "liberation" does not require us to leave life in the world for some transcendent spiritual plane. Life itself is the path. Above all, Cope shows how yoga can heal the suffering of self-estrangement that pervades our society, leading us to a new sense of purpose and to a deeper, more satisfying life in the world.
