Holes Louis Sachar 2020-11-05 Stanley Yelnat's family has a history of bad luck going back generations, so he is not too surprised when a miscarriage of justice sends him to Camp Green Lake Juvenile Detention Centre. Nor is he very surprised when he is told that his daily labour at the camp is to dig a hole, five foot wide by five foot deep, and report anything that he finds in that hole. The warden claims that it is character building, but this is a lie and Stanley must dig up the truth. In this wonderfully inventive, compelling novel that is both serious and funny, Louis Sachar has created a masterpiece that will leave all readers amazed and delighted by the author's narrative flair and brilliantly handled plot.

Who Was Marie Antoinette? Dana Meachen Rau 2015-10-06 From the palaces of Austria to the mirrored halls of Versailles, Marie Antoinette led a charmed life. She was born into royalty in 1755 and married the future king of France at age 15. By 21 she ascended to the throne and enjoyed a lavish lifestyle of masquerade balls, sky-high wigs, and extravagant food. But her taste for excess

ruffled many feathers. The poor people of France blamed Marie Antoinette for their poverty. Her spending helped incite the French Revolution. And after much public outcry, in 1793 she quite literally lost her head because of it. Whether she was blameless or guilty is debatable, but Marie Antoinette remains woven into the fabric of history and popular culture.

Curiosity Alberto Manguel 2015-01-01 An eclectic history of human curiosity, a great feast of ideas, and a memoir of a reading life from an internationally celebrated reader and thinker *Curiosity* has been seen through the ages as the impulse that drives our knowledge forward and the temptation that leads us toward dangerous and forbidden waters. The question "Why?" has appeared under a multiplicity of guises and in vastly different contexts throughout the chapters of human history. Why does evil exist? What is beauty? How does language inform us? What defines our identity? What is our responsibility to the world? In Alberto Manguel's most personal book to date, the author tracks his own life of curiosity through the reading that has mapped his way. Manguel chooses as his guides a selection of writers who sparked his imagination. He dedicates each chapter to a single thinker, scientist, artist, or other figure who demonstrated in a fresh way how to ask "Why?" Leading us through a full gallery of inquisitives, among them

Thomas Aquinas, David Hume, Lewis Carroll, Rachel Carson, Socrates, and, most importantly, Dante, Manguel affirms how deeply connected our curiosity is to the readings that most astonish us, and how essential to the soaring of our own imaginations.

Life in Peacetime Francesco Pecoraro 2019-04-15 When Life in Peacetime opens, on May 29, 2015, engineer Ivo Brandani is sixty-nine years old. He's disillusioned and angry--but morbidly attached to life. As he makes a day-long trip home from his job in Sharm el Sheik reconstructing the coral reefs of the Red Sea using synthetics, he reflects on both the brief time he sees remaining ahead and on everything that has happened already in his life to which he can never quite resign himself. We see his slow bureaucratic trudge as a civil servant, long summer vacations on a Greek island, his twisted relationship with his first boss, the turmoil and panic attacks he faced during the student uprisings in 1968 that pushed him away from philosophy and into engineering, and his fearful childhood as a postwar evacuee. A close-up portrait of an ordinary existence, Life in Peacetime offers a new look at the postwar era in Italy and the fundamental contradictions of a secure, middle-class life.

Globalization Thomas Hylland Eriksen 2014-02-13 For the first time in human history, the vast majority of the world's population is connected through trade, travel, production, media and politics. Ours is an era of ubiquitous mobile communication, economic outsourcing, mass migration and imported consumer goods. At the same time, people everywhere are concerned to keep their identities rooted and sense of place in the face of

momentous change. This new edition of Thomas Hylland Eriksen's concise and engaging landmark textbook outlines the main debates and controversies around globalization, and develops a unique perspective to show how globalization is an inherently double process, taking place both from above and below. Each chapter is supported by boxed case studies and bullet points summarizing the core information, suggestions for further reading, and essay and discussion questions, making this the ideal guide for both the classroom and independent study. Focusing on key concepts of globalization and drawing on international examples, this book is essential for anyone wishing to understand the fundamental processes underlying the contemporary world and the consequences these have for all of us.

From Song to Book Sylvia Huot 2019-05-15 As the visual representation of an essentially oral text, Sylvia Huot points out, the medieval illuminated manuscript has a theatrical, performative quality. She perceives the tension between implied oral performance and real visual artifact as a fundamental aspect of thirteenth- and fourteenth-century poetics. In this generously illustrated volume, Huot examines manuscript texts both from the performance-oriented lyric tradition of chanson courtoise, or courtly love lyric, and from the self-consciously literary tradition of Old French narrative poetry. She demonstrates that the evolution of the lyrical romance and dit, narrative poems which incorporate thematic and rhetorical elements of the lyric, was responsible for a progressive redefinition of lyric poetry as a written medium and the emergence of an explicitly written literary tradition uniting lyric and narrative poetics. Huot first investigates the nature of the vernacular book in the thirteenth and fourteenth

centuries, analyzing organization, page layout, rubrication, and illumination in a series of manuscripts. She then describes the relationship between poetics and manuscript format in specific texts, including works by widely read medieval authors such as Guillaume de Lorris, Jean de Meun, and Guillaume de Machaut, as well as by lesser-known writers including Nicole de Margival and Watriquet de Couvin. Huot focuses on the writers' characteristic modifications of lyric poetics; their use of writing and performance as theme; their treatment of the poet as singer or writer; and of the lady as implied reader or listener; and the ways in which these features of the text were elaborated by scribes and illuminators. Her readings reveal how medieval poets and book-makers conceived their common project, and how they distinguished their respective roles.
