The Idea of the Labyrinth from Classical Antiquity through the Middle Ages Penelope Reed Doob 2019-03-15 Ancient and medieval labyrinths embody paradox, according to Penelope Reed Doob. Their structure allows a double perspective—the baffling, fragmented prospect confronting the maze-treader within, and the comprehensive vision available to those without. Mazes simultaneously assert order and chaos, artistry and confusion, articulated clarity and bewildering complexity, perfected pattern and hesitant process. In this handsomely illustrated book, Doob reconstructs from a variety of literary and visual sources the idea of the labyrinth from the classical period through the Middle Ages. Doob first examines several complementary traditions of the maze topos, showing how ancient historical and geographical writings generate metaphors in which the labyrinth signifies admirable complexity, while poetic texts tend to suggest that the labyrinth is a sign of moral duplicity. She then describes two common models of the labyrinth and explores their formal implications: the unicursal model, with no false turnings, found almost universally in the visual arts; and the multicursal model, with blind alleys and dead ends, characteristic of literary texts. This paradigmatic clash between the labyrinths of art and of literature becomes a key to the metaphorical potential of the maze, as Doob's examination of a vast array of materials from the classical period through the Middle Ages suggests. She concludes with linked readings of four "labyrinths of words": Virgil's Aeneid, Boethius' Consolation of Philosophy, Dante's Divine Comedy, and Chaucer's House of Fame, each of which plays with and transforms received ideas of the labyrinth as well as reflecting and responding to aspects of the texts that influenced it. Doob not only provides fresh theoretical and historical perspectives on the labyrinth tradition, but also portrays a complex medieval aesthetic that helps us to approach structurally elaborate early works. Readers in such fields as Classical literature, Medieval Studies, Renaissance Studies, comparative literature, literary theory, art history, and intellectual history will welcome this wide-

ranging and illuminating book.

Phoenix Rising: Birthing the Strong Delusion Phyllis Kathleen Gault 2021-11-09 Phyllis Kathleen Gault, B.S. M.A. is the author of Phoenix Rising: Birthing the Strong Delusion. Mrs. Gault states that all religions are merging with Christianity to form one universal church. She provides an overview of the major world religions, and she explains how both liberal and Charismatic Christians are merging Eastern mysticism and Western esotericism with Christianity. Mysticism is the tie that binds these mystery religions together. Her book focuses on a far-right movement called the New Apostolic Reformation. These Gnostics are cloaking mysticism within Christian-sounding terms to convert Christians, unwitting, to their rising apostate religion. These false prophets call this the underground stream. These pretenders of the faith are taking advantage of the rising global crises. These dominionists plan to deconstruct the United States Government to establish a fascist system controlled by their heretical prophets, and apostles, as they do not follow Bible-based Christianity. When they reach the apex of their plan, they will establish a theocracy, which is a political, economic, social, and religious system based on their heretical interpretation of Christianity. Revelation 12 calls this church Mystery Babylon. Finally, these Gnostic Christians are networking with

various groups to deconstruct the United States Government by increasing divisions among the people. They say this chaos will lead to a second Civil War. Then, this "revolution" will spread worldwide, leading to the bloodiest crusade ever. This 8.5 x 11 paperback book is 372 pages with 56 pages of reference. It is one inch thick. It is a big book. This work has 320 black and white images and 52 color photos. It traces the rise of pagan religions from the beginning of time and it reveals how Gnostics and other esotericists have infiltrated Christianity with these philosophical ideas.

Redefining age-old concepts of masculinity, Jungian analysts Robert Moore and Douglas Gillette make the argument that mature masculinity is not abusive or domineering, but generative, creative, and empowering of the self and others. Moore and Gillette clearly define the four mature male archetypes that stand out through myth and literature across history: the king (the energy of just and creative ordering), the warrior (the energy of aggressive but nonviolent action), the magician (the energy of initiation and transformation), and the lover (the energy that connects one to others and the world), as well as the four immature patterns that interfere with masculine potential (divine child, oedipal child, trickster and hero). *King, Warrior, Magician, Lover* is an exploratory journey that will help men and women reimagine and deepen their understanding of the masculine psyche.

Northern Archaeology and Cosmology Vesa-Pekka Herva 2019-06-28 In its analysis of the archaeologies and histories of the northern fringe of Europe, this book provides a focus on animistic–shamanistic cosmologies and the associated human–environment relations from the Neolithic to modern times. The North has fascinated Europeans throughout history, as an enchanted world of natural and supernatural marvels: a land of light and dark, of northern lights and the midnight sun, of witches and magic and of riches ranging from amber to oil. Northern lands conflate fantasies and realities. Rich archaeological, historical, ethnographic and folkloric materials combine in this book with cutting-edge theoretical perspectives drawn from relational ontologies and epistemologies, producing a fresh approach to the prehistory and history of a region that is pivotal to understanding Europe-wide processes, such as Neolithization and modernization. This book examines the mythical and actual northern worlds, with northern relational modes of perceiving and engaging with the world on the one hand and the ‘place’ of the North in European culture on the other. This book is an indispensable read for scholars of archaeology, anthropology, cultural studies and folklore in northern Europe, as well as researchers interested in how the North is intertwined with developments in the broader European and Eurasian world. It provides a deep-time understanding of globally topical issues and conflicting interests, as expressed by debates and controversies around Arctic resources, nature preservation and indigenous rights.

The Path of the Holy Fool Lauren Artress 2020-11-15 *The Path of the Holy Fool: How the Labyrinth Ignites Our Visionary Powers* *The Path of the Holy Fool* summons each of us to become a Holy Fool: one who is accountable, stands for equality and social justice, embraces an ecological vision, and encourages community spirit. Lauren Artress, who established the two permanent labyrinths at Grace Cathedral, San Francisco, is a leading force in the Labyrinth Movement. Her new book *The Path of the Holy Fool: How the Labyrinth Ignites Our Visionary Powers* expands upon her earlier work in *Walking a Sacred Path: Rediscovering the Labyrinth as a Spiritual Practice*. Through the Parsifal story Artress suggests the labyrinth serves as a Grail that is discovered in the invisible, imaginative, in-between world symbolized by the Grail Castle. Most importantly this book invites readers to explore and reflect upon their own uniquely configured imaginations. It is through the imagination that self-reflection and raw experiences of the Holy occur. Once we navigate our imaginative processes without fear, the labyrinth experience ignites our creativity, heals our wounds and opens our big picture vision that nurtures empathy

and gives us eyes to see and ears to hear—even through the sorrows of the pandemic—the call for a life-enhancing future. The labyrinth offers the Holy Fool an unwavering path as we learn to take risks, create new modalities and find a way to contribute to our evolving world. ISBN (eBook): 978-1-7359188-0-8

Red Thread Charlotte Higgins 2018-08-02 'Charlotte Higgins's *Red Thread* is a masterwork' Ali Smith A thrillingly original, labyrinthine journey through myth, art, literature, history, archaeology and memoir. The tale of how the hero Theseus killed the Minotaur, finding his way out of the labyrinth using Ariadne's ball of red thread, is one of the most intriguing, suggestive and persistent of all myths, and the labyrinth - the beautiful, confounding and terrifying building created for the half-man, half-bull monster - is one of the foundational symbols of human ingenuity and artistry. Charlotte Higgins, author of the Baillie Gifford-shortlisted *Under Another Sky*, tracks the origins of the story of the labyrinth in the poems of Homer, Catullus, Virgil and Ovid, and with them builds an ingenious edifice of her own. Along the

way, she traces the labyrinthine ideas of writers from Dante and Borges to George Eliot and Conan Doyle, and of artists from Titian and Velázquez to Picasso and Eva Hesse. Her intricately constructed narrative asks what it is to be lost, what it is to find one's way, and what it is to travel the confusing and circuitous path of a lived life. *Red Thread* is, above all, a winding and unpredictable route through the byways of the author's imagination - one that leads the reader on a strange and intriguing journey, full of unexpected connections and surprising pleasures.

Mazes and Labyrinths: A General Account of their History and Development William Henry Matthews 2020-09-28 The hedge-maze, which is the only type with which most of us have a first-hand acquaintance, is generally felt to be a survival of a romantic age, even though we esteem its function as nothing higher than that of a playground for children. Many a tender intrigue has been woven around its dark yew alleys. Mr. Compton Mackenzie, for example, introduces it most effectively as a lovers' rendezvous in "The Passionate Elopement," and no doubt the readers of romantic literature will recall other instances of a like nature. The story of fair Rosamond's Bower is one which will leap to the mind in this connection. This type of maze alone is worth more than a passing thought, but it is far from being the only, or even the most interesting, development of the labyrinth idea. What is the difference, it may be asked, between a maze and a labyrinth? The answer is, little or none. Some writers seem to prefer to apply the word "maze" to hedge-mazes only, using the word "labyrinth" to denote the structures described by the writers of antiquity, or as a general term for any confusing arrangement of paths. Others, again, show a tendency to restrict the application of the term "maze" to cases in which the idea of a puzzle is involved. It would certainly seem somewhat inappropriate to talk of "the Cretan Maze" or "the Hampton Court

Labyrinth," but, generally speaking, we may use the words interchangeably, regarding "maze" as merely the northern equivalent of the classic "labyrinth." Both words have come to signify a complex path of some kind, but when we press for a closer definition we encounter difficulties. We cannot, for instance, say that it is "a tortuous branched path designed to baffle or deceive those who attempt to find the goal to which it leads," for, though that description holds good in some cases, it ignores the many cases in which there is only one path, without branches, and therefore no intent to baffle or mislead, and others again in which there is no definite "goal." We cannot say that it is a winding path "bounded by walls or hedges," for in many instances there are neither walls nor hedges.

One of the most famous labyrinths, for example, consisted chiefly of a vast and complicated series of rooms and columns. In fact, we shall find it convenient to leave the question of the definition of the words, and also that of their origin, until we have examined the various examples that exist or are known to have existed.
